Premier Sports and Leisure

Dear Brad

The synthetic turf you installed outside our junior classrooms has been a tremendous success.

While improving the appearance of the outdoor area, most importantly the synthetic grass provides a softer and more hygienic area for gross motor and sensory play activities.

Cleaning is easy and the cleaners are able to maintain the surface with a minimum of effort.

We are very pleased with the synthetic surface and would recommend it to other schools with similar outdoor areas.

Yours faithfully

Sharon John
Deputy Principal
